

SentinelOps

Chargebee & Stripe Setup Guide

Step-by-step instructions for David (Australia Operations & Billing)

Prepared for: **David (Australia)**

Product: **SentinelOps**

Website: <https://trysentinelops.com>

Status: **100% Compliant on Student Visa
(Subclass 500)**

Hi David — this guide walks you through setting up the Australian billing and payment accounts for SentinelOps. **You do not need any technical knowledge to complete this.** Every step is explained in plain English. As an international student in Australia, holding an ABN and acting as the Australian billing lead is completely legal under your visa conditions (detailed in Section A). If anything is unclear, please message Dibyan before continuing.

BEFORE YOU BEGIN

Section A — Things to Collect Before You Start

✓ **Student Visa Compliance Note for David:** Under Australian immigration law, international students holding a Subclass 500 visa are legally entitled to obtain an ABN and operate as a Sole Trader. The 48-hour per fortnight rule only caps active physical work hours. Since the software development is built in Nepal, your Australian billing tasks take ~1 hour per week, easily complying with your visa conditions.

Think of this like gathering your documents before going to the bank. Having everything ready beforehand means the whole process will take about 30 minutes with no interruptions.

A1 — Documents and Information You Will Need

Item	What It Is	How to Get It
ABN	Your 11-digit Australian Business Number — required to accept payments in Australia	Go to abr.gov.au → click <i>Apply for an ABN</i> . Free, takes 15 minutes. Issued immediately.
Business or Trading Name	The name that appears on customer invoices	Your registered trading name — e.g. SentinelOps
Business Address	A physical Australian street address (not a P.O. Box)	Your home address is fine for sole traders
Business Email Address	Email for all billing notifications	The technical team can set up billing@trysentinelops.com , or use any email you already have
Australian Mobile Number	For account verification	Format: +61 4XX XXX XXX
Photo ID	To verify your identity — like opening a bank account	Australian driver's licence (photo front and back) or Australian passport (photo page). Photos must be clear and well-lit.
Bank BSB	6-digit branch number of your Australian bank	Found in internet banking or on a bank statement (e.g. 062-000)
Bank Account Number	Account where earnings are deposited	Same source as your BSB
TFN (last 4 digits only)	Tax File Number — only the last 4 digits needed	Check ATO correspondence or your myGov account

A2 — Information the Technical Team Will Send You

- Account name to use: **sentinelops**
- An email address to invite once your account is created
- The website: <https://trysentinelops.com>

⚠ Please wait until you have received all of the above before proceeding.

YOUR TASK 1 OF 4

Section B — Create Your Chargebee Account

Chargebee is the billing software that manages all subscriptions and payments. Think of it as the cash register for the business.

1 Open the Chargebee website

1. Open your browser (Chrome, Safari, or Edge)
2. Type `www.chargebee.com` in the address bar and press Enter

2 Start signing up

1. Click **"Get Started for Free"** in the top right corner
2. A sign-up form will appear

3 Fill in the sign-up form

Box on screen	What to type
First Name	Your first name
Last Name	Your last name
Work Email	Your business email address
Password	A strong password — write it down somewhere safe
Company Name	Your business or trading name (e.g. SentinelOps)
Country	Select Australia from the dropdown
Phone	Your Australian mobile number

Click **"Get Started"** or **"Start Trial"**.

4 Verify your email address

1. Open the inbox for the email you just entered
2. Look for an email from Chargebee — subject: *"Please verify your email address"*
3. If not seen in 5 minutes, check your **Junk / Spam** folder
4. Click the link inside the email — it will bring you back to Chargebee

5 Set your account name — READ CAREFULLY

⚠ This is permanent. The account name cannot be changed once it is set.

1. In the account name box, type exactly: `sentinelops`
 - If already taken, try: `sentinelops-app` , then `trysentinelops` , then `sentinelops-io`
 - **Whatever name you use, please tell the technical team immediately**
2. Click **"Create Account"** or **"Set Up My Site"**

6 Answer the onboarding questions

Question	Answer to select
What best describes your business?	SaaS / Software
How do you plan to charge customers?	Recurring subscription
Expected monthly billing volume?	\$0 – \$10,000
Do you have developers who can integrate?	Yes

Click through until you reach the Chargebee dashboard. No real payments are processed yet — this is safe.

YOUR TASK 2 OF 4

Section C — Invite the Technical Team

You need to give the SentinelOps technical team access to your Chargebee account so they can configure everything correctly on your behalf. Think of it like handing a spare key to a trusted person.

1. In the Chargebee dashboard, click your **profile icon** (top right corner — usually shows your initials)
2. Click "**Settings**"
3. In the left menu, find and click "**Users**" (may be under "Team" or "Account")
4. Click "**Invite User**"
5. Fill in:
 - **Email:** The email address sent to you by the technical team
 - **Role:** Select **Administrator**
6. Click "**Send Invite**"

Once the technical team accepts, they will handle all complex configuration. You only need to complete Section D.

YOUR TASK 3 OF 4

Section D — Connect Your Bank Account via Stripe

Stripe is the company that processes payments and deposits money into your Australian bank account. This step is similar to opening a new business bank account — your identity needs to be verified.

1 Open payment settings in Chargebee

1. In Chargebee, click "**Settings**" in the left menu
2. Click "**Configure Chargebee**"
3. Click "**Payment Gateway**"
4. Click "**Add Payment Gateway**"
5. Select **Stripe** from the list

2 Connect to Stripe

1. Click "**Connect with Stripe**"
2. A new page opens — this is the Stripe website
3. Click "**Create account**"

3 Email and Password

- Use the same email as your Chargebee account
- Choose a strong password and write it down — you will need it to check payouts

4 About Your Business

Box	What to Select or Type
Country	Australia
Business type	Individual / Sole Trader (if unsure, choose this). Select Company only if you have a registered company.
Industry	Software → SaaS

5 Business Details

Box	What to Type
Legal Name	Your full name, exactly as on your driver's licence or passport
Trading Name	SentinelOps <i>(optional)</i>
ABN	Your 11-digit ABN — no spaces or hyphens
Business Address	Your physical Australian address
Business Phone	Your Australian mobile number
Business Website	https://trysentinelops.com
Business Description	AI agent governance and policy enforcement SaaS platform

6 Personal Details

Box	What to Type
Full Legal Name	Exactly as on your ID
Date of Birth	Your date of birth
Home Address	Your home address
Last 4 Digits of Tax ID	Last 4 digits of your TFN

7 Upload Your Photo ID

1. Select **driver's licence** or **passport**
2. Take a clear photo:
 - Driver's licence: front and back
 - Passport: the photo page
3. Upload the photos when prompted

Photo tips: Good lighting, no shadows, all four corners visible, no fingers covering the ID. Blurry images will be rejected. Stripe usually approves Australian accounts within minutes to a few hours.

8 Bank Account for Payouts

Box	What to Type
Account Holder Name	Your full legal name — must match your ID
BSB	Your 6-digit BSB (e.g. 062-000)
Account Number	Your bank account number
Currency	AUD

Your first payout from Stripe arrives within 7–14 business days. This is normal for new accounts. After that, payouts follow your chosen schedule.

9 Two-Step Security

Stripe adds security similar to your bank's SMS login codes. Choose one:

- **SMS / Text message** — easiest option. Enter your mobile number and Stripe sends you a code each time you log in.
- **Authenticator app** — Google Authenticator or Authy. Slightly more secure.

10 Finish the connection

1. After completing Stripe, you will be automatically sent back to Chargebee
2. Chargebee will show: **"Stripe connected successfully"**

The technical team will handle everything from this point.

YOUR TASK 4 OF 4

Section E — Final Checklist

Once Stripe is connected, tick off each item below. When all are ticked, please contact the technical team — they will complete the remaining setup and confirm when everything is live and ready to accept payments.

- ☐ I have created my Chargebee account
- ☐ I set the account name to **sentinelops** (or an alternative — I have told the technical team which name was used)
- ☐ I invited the technical team as Administrator
- ☐ I created my Stripe account and connected it to Chargebee
- ☐ I uploaded my photo ID on Stripe
- ☐ I added my bank account details (BSB and account number) on Stripe

- ☐ Stripe shows a green **"Verified"** or **"Active"** status on the home screen

Not sure if Stripe approved you? Log in at **stripe.com** and check the home screen. If it shows any warnings or requests more information, complete those before notifying the technical team.

ONGOING

Section F — Checking Your Earnings Once Live

What You Want to Check	Where to Find It
Who is currently subscribed	Log in to chargebee.com → click Subscriptions
Monthly revenue and earnings	Chargebee → Reports → Revenue
Failed or declined payments	Chargebee → Reports → Failed Payments
Money arriving in your bank	Log in to stripe.com → Balances → Payouts
